## PROFILE

---

### Software Developer

Nov. 1991

*Fullstack developer*

*Almada, PT*

- A decade in Software Development has forged a path through the Java ecosystem, leading to the creation of resilient backend systems and intuitive front-end interfaces.
- Exposure to diverse sectors including governance, risk management, compliance, banking regulations, travel bookings, and ticketing systems has broadened the collective viewpoint, consistently inspiring the development of solutions that deliver excellence and efficiency to users.
- Committed to upholding a high standard of code and operational processes.

## WORK EXPERIENCE

---

### Senior Software Developer

May 2021 – Oct. 2023

*SureCloud*

*Remote, UK*

- Fullstack developer in a software dedicated to management of Governance, Risk Management, and Compliance for other companies and institutions. Prioritized rapid implementation and user-friendly design.
- Java, Spring, Jooq, Postgres, Liquibase, Gradle, TypeScript, Angular, RxJs, Ag-Grid, Jenkins, GitHub CI, Postman, Jira, IntelliJ, VSCode

### Java Software Developer

April 2017 – May 2021

*Aubay consultant at BNP Paribas*

*Lisbon, PT*

- Managed the development and maintenance of a regulatory report management system, which automated the creation of AEOI reports for financial institutions. The system consolidated data from dozens of applications, streamlining the compliance process and enhancing reporting accuracy for regulatory submissions.
- Java, Spring, SQL Oracle, Sencha Extjs, JavaScript, Maven, Jira, Git, Subversion

### Software Developer

Sep. 2016 – March 2017

*ViaTecla*

*Almada, PT*

- Contributed to development and maintenance of multiple customer travel booking websites using Viatecla's generic products. Tailored specific needs of clients drove product development to stay updated with market trends.
- C, .NET, JavaScript, Subversion

### Software Developer

Feb. 2016 - Aug. 2016

*Infosistema*

*Lisbon, PT*

- Worked in developing finance and banking systems. My responsibilities spanned creating institutional client websites to managing extensive ETL processes for large data sets.
- Java, AngularJS, Informatica Powercenter (ETL tool), J2EE, SQL Oracle, Git

### Software Developer

Oct. 2014 - Feb. 2016

*Link consulting*

*Lisbon, PT*

- At Link Consulting's Smart Cities unit, Contributed to the development of advanced ticketing system solutions. Our team specialized in technologies leveraging smartcards, RF/Contactless integrations, and mobile platforms.
- Java, Spring, Hibernate, SQL Oracle, JBoss, JSF, Subversion

## EDUCATION

---

### NOVA School of Science and Technology — FCT NOVA

Sep. 2010 – Ago. 2014

*Bachelor in Computer Science*

*Lisbon, PT*

- Gained comprehensive knowledge of operating systems and computer architecture.
- Acquired a thorough understanding of computer network structures and their development.
- Cultivated strong theoretical and practical expertise in algorithms and data structures.
